# DERIVATIVES SERVICE BUREAU

## GUIDELINES: FIX INTERFACE, ONBOARDING INTERMEDIARIES

11 August 2017

DSB Technical Support

technical.support@anna-dsb.com

| Connection attribute | Note | Example |
|---|---|---|
| FIX Comp ID | Always the Comp ID that connects to the DSB directly | INT |
| FIX Sub Comp ID | | DSK@ORG |
| FIX User Name | Always starts with FIX@ | FIX@DSK@ORG@INT |
| REST User name | Always starts with REST@ | REST@DSK@ORG@INT |

In such use case, the intermediary is allocated with a single port and many FIX sessions.
the intermediary may establish a single TCP connection and use it for all the FIX sessions.
